

Your path into ocean work

Background reading for teachers

This reading gives you the background for each slide, with sources you can check.

Study options

Mindanao State University at Naawan offers a BS in Fisheries and a BS in Marine Science, with master's and doctoral programmes in marine biology, and is a CHED Centre of Excellence in Fisheries.¹ Silliman University's Institute of Environmental and Marine Sciences offers MS and PhD programmes in marine biology, and its marine laboratory was founded in 1974.² Programme offerings change, so check current details with each institution.

MCP internships

MCP offers divemaster (14 to 24 weeks), instructor (10 weeks or more), media (6 weeks or more, usually non-diving), academic research (16 weeks or more, for students enrolled in or holding a relevant degree) and science officer (24 weeks minimum) internships.³
