

Apo Island case study

Worksheet

Name: _____

1. Predict: sketch what happened to the amount of fish over 18 years

2. What did the scientists actually find? Was your prediction right?

3. Score Apo Island against the five NEOLI features

Feature	What it means	Yes	No	Our reason
No-take	No fishing at all is allowed inside			
Enforced	Rules are actually patrolled and obeyed			
Old	Protected for more than 10 years			
Large	Bigger than 100 square kilometres			
Isolated	Separated from fished areas by deep water or sand			

4. Apo is small. Why do you think it still worked?
