

Research planner

Plan your investigation

Names: _____

1. Our research question

2. Our hypothesis

3. Variables: what we compare, what we measure, what we keep the same

4. Which data we use and leave out, and why

5. Our analysis: calculations and graphs

6. What result would support our hypothesis? What would not?

7. Limitations we already expect

8. Who does what, and by when
