

Stage 1

Crawling down the beach

Crabs and birds hunt hatchlings on the sand.

Roll a 1: you are eaten.

Stage 2

Bright lights

Lights from houses and roads can lead hatchlings the wrong way.

Roll a 1 or 2: you get lost inland.

Stage 3

The first swim

Fish wait near the shore for hatchlings.

Roll a 1 or 2: you are eaten.

Stage 4

The lost years

Young turtles drift for years in floating seaweed far out at sea.

Roll a 1: a big fish eats you.

Stage 5

Nets and plastic

Fishing nets and floating plastic can trap or choke young turtles.

Roll a 1 or 2: you are caught.

Stage 6

Growing up

It takes 20 to 30 years to become an adult.

Roll a 1: another danger gets you.
