

Energy

Sunlight

I give energy to plants, algae and plankton so they can make their own food.

Sharks on the reef: web of life game. Made by Marine Conservation Philippines.

Producer

Seagrass

I eat: Sunlight

I am eaten by: Green turtles, dugongs, rabbitfish

Sharks on the reef: web of life game. Made by Marine Conservation Philippines.

Producer

Algae

I eat: Sunlight

I am eaten by: Parrotfish, rabbitfish, crabs, sea urchins

Sharks on the reef: web of life game. Made by Marine Conservation Philippines.

Producer and grazer

Plankton

I eat: Sunlight, and each other. We are tiny plants and animals drifting in the water.

I am eaten by: Coral, sardines, whale sharks, manta rays

Sharks on the reef: web of life game. Made by Marine Conservation Philippines.

Filter feeder

Coral

I eat: Plankton. Tiny algae living inside me also make food from sunlight.
