

Sand and water experiment

Record sheet

Names: _____

Prediction

Time (minutes)	0	2	4	6	8	10	12	14	16	18	20
Sand (°C)											
Water (°C)											

Under the lamp: 0 to 10 minutes. In the shade: 10 to 20 minutes.

Draw a line graph of both results

What happened? How does this help explain why the ocean holds so much heat?
